

EXP² FILTER PROMOTION

The **EXP²** Pre-Column and In-Line Hand-Tight Filters are ideal for protecting small-particle UHPLC columns and systems at extreme pressures.

EXP² Filters help extend the life of a UHPLC system and protect your investment without sacrificing performance.

Special Promotion Price - All options are
***AUD\$620 + GST**

Pre-Column Filter Holder

In-line Filter Holder

EXP2 Filter Cartridges

Advantages of **EXP²** Filters

- Provides a better, more robust, and cost-effective product compared to alternatives
- Extends the life of UHPLC system and protects your investment without sacrificing performance
- Holders are reusable and ensure auto-adjusting zero-dead-volume connections for all 10-32 ports
- Low-volume, low-dispersion cartridges are uni-directional
- Free-Turn[®] architecture allows the user to change cartridges by hand without breaking fluid connections on the holder inlet/ outlet.
- Hardened stainless steel end cap eliminates galling
- All holders include EXP Fittings
- Approved for use at 20,000+ psi (1,400+ bar)
